‘New Awakening’^o **The Spiritual System**

Enlightenment throughout the ages is always the same, consisting of a human being awakening to the inner realm of the mystic law of creation. These great personal experiences have been translated into many religious, spiritual and mystical practices that have been taught over many centuries to help society. We have tremendous respect and appreciation for all past different teaching methods because they have brought us spiritually to where we are today.

This is a very exciting time as there is the emergence of a new energy consciousness occurring throughout the world. What is happening is that many of these teachings are now transforming into a direct spiritual experience. There are many individuals who are now awakening to an inner divine wisdom resulting in a tremendous love and compassion for themselves, humanity and the natural environment. You could say that the seeds of the old spiritual teachings are now transforming, they are now starting to flower within society.

We understand this as a shift in consciousness that is starting to take place on the earth today; the start of a new golden, spiritual, human era for all of mankind to experience. There have been many prophecies which support that this change in consciousness will be happening at this time. The main shift that is taking place in society today is the change in the way that enlightenment is now being experienced.

Throughout mankind’s history we have had the experience of isolated individuals achieving enlightenment, teaching disciples who in turn have left teachings and spiritual practices for us to follow. These teachings and practices have been left to help us understand our relationship with the creative source of existence. What we are seeing happen today is quite the opposite whereby personal enlightenment is now being experienced by many individuals, in turn slowly spreading throughout the whole of society as each enlightened individual influences others to do the same.

Having had the privilege of this direct divine experience, the founder of the ‘New Awakening’ system, Robert Bourne, being aware of this new phenomenon has been divinely guided to create a modern system of spiritual awakening that is appropriate for today’s age. This new system enables the individual to have a direct experience of the laws of creation; eventually resulting in personal enlightenment. When you experience this new system of learning in its entirety a new spiritual awakening becomes possible.

The new awakening system, created for modern day living, consists of a series of personal and spiritual development awakening workshops plus the four Reiki

stages of learning. The Reiki stages of learning contain the traditional Reiki attunements, learning concepts plus wisdom practices at each stage. These additional teachings provide spiritual experiences that become personal foundations, building blocks for the individual's next stage of spiritual evolution. All the four stages of Reiki interlink into one complete 'New Awakening' personal enlightenment system for the student.

The 'New Awakening' system fundamentally differs from the traditional workshop as they offer the student a direct inner spiritual experience of the teaching that they are learning. On each workshop the student receives a 'Spiritual Awakening Transfer', channelled from Unconditional Love. This will awaken a direct inner experience and realization for the student.

The Unconditional Love energy transfer, channelled by the 'New Awakening' teacher attunes the chakra system of the student to bring about their spiritual realization of the teaching they are learning; a new awakening with a change in consciousness occurs as a result.

The 'New Awakening' Courses & Workshops will create a successful individual with a compassionate heart. The students will have the ability to create their own reality, free from the conditioning and limitations of the self. They will awaken to their own healing; to their own inner state of Unconditional Love and most importantly to their inner teacher providing them with Divine Wisdom in each moment of their existence. They will learn the workings of human spiritual life within all aspects of their relationships and their personal experience of daily life.

New Awakening Spiritual Teachers

Reiki party Master Teachers have the opportunity to advance in their training and become a 'New Awakening' spiritual teacher. Qualification at this level is not only based upon attendance of the training course but is based upon the ability to channel Unconditional Love from the crown chakra. 'New Awakening' spiritual teachers will have to evolve to a state of 'Being' that resonates with Unconditional Love; otherwise they will be unable to transfer Divine Wisdom and awaken the spiritual teachings within the student. At this level of teaching the whole process is about the student having a direct experience of the teachings that are being transferred from one person to another, through the crown chakra.

It is the specially trained 'New Awakening' spiritual teachers who run the personal and spiritual development workshops, such as 'Creating Abundance'. These workshops are available to everyone and are promoted through the Reiki party organisation UK Events Booking System.

The different workshops contain additional spiritual teachings that are part of the 'New Awakening' system of learning. These individual workshops interlock together with the four Reiki Degrees to form a complete program for personal evolution and enlightenment for the student.

The organization’s objective is to create a Golden Age for human spiritual existence through the transformation of the individual. Because of the importance of unity oneness consciousness the role of the ‘New Awakening Spiritual Teacher’ ☉ is not for individuals who wish to run their own independent school of teaching. This prevents the teachings from deviating from the purity of our intention. All workshops are promoted through the Reiki party UK events online booking system.

What you will receive and be able to offer after your training

1. To run awakening workshops that will be promoted on our national website.
2. To benefit from national and local marketing with professional e-mail campaigns.
3. All workshops benefit from our profit sharing online student booking system.

The ‘New Awakening’ workshops have been based upon the most common spiritual and personal development books and films within society which are attracting the most public interest of the time, such as ‘The Secret’, ‘What the bleep do we know?’, ‘The Power of Now’ etc. The courses and workshops are consequently not fixed as they constantly change according to the evolution of consciousness within society; according to the current desires of people meeting their minds where they are within their existing beliefs.

The fundamental difference that a ‘New Awakening Course’ will provide

On each workshop a ‘Spiritual Awakening Transfer’ ☉ will be given to the student to awaken a direct inner experience and realization of the workshop teaching. This energy is transferred into the chakra system of the student to bring about their spiritual realization of the teaching. A new awakening with a change in consciousness occurs as a result.

What the ‘Awakening Courses’ will achieve and contain for your students:-

What happens to students in the courses is phenomenal. The courses and workshops deal with all major aspects of life such as:

- Creating Abundance – your success through mastering the Law of Attraction.
- How to develop ‘Vision & Life Purpose’ to create meaning to your existence.
- Discovering Love and Understanding Relationships - Becoming free from conditioning and entrapment.
- Knowing how to Love yourself - How to deal with yourself, living free from the past conditioning, present addictions and personal negative emotions.
- Healing the relationships with your parents to establish a deeper spiritual connection with the male and female aspects of the Divine.
- How to experience the oneness of life to establish an Unconditional Love towards all of existence. This will create the understanding that if you cause pain to another you are causing pain to yourself.
- To create an experience of Divine grace and union between your conditioned self, your soul and the unchanging reality of existence, the infinite being; your own God or Divinity no matter what form or name you give to it. This will open the possibility for miracles to occur.
- Establishing the ‘Inner Silence’, to come into consciousness with your own inner teacher, your own higher perfect self, making each moment choice from the influence of Divine Wisdom.
- To become a blessing to existence.

All ‘New Awakening’ Teachers learn our spiritual system of healing first before progressing to the advanced role as a ‘New Awakening Spiritual Teacher’.

The courses and workshops are balanced based upon today's reality

If the human being is successful but does not have a heart they will become a danger to society, to themselves, friends and family as well. We can see this happening in the world everyday. On the other hand if the individual was a loving, kind and a good person but continually failing in their life, sooner or later they would become bitter about life, they would become unhappy and as you know an unhappy individual creates an unhappy world.

The 'New Awakening Courses & Workshops' © will create a successful individual with a compassionate heart. The students will have the ability to create their own reality, free from the conditioning and limitations of the self. They will awaken to their own healing; to their own inner state of Unconditional Love and most importantly to their inner teacher providing them with Divine Wisdom in each moment of their existence. They will learn the workings of human life within all aspects of their relationships.

The 'New Awakening Spiritual Teacher' © becomes part of a spiritual team

Attendance of the training course does not constitute an automatic qualification; a pass is determined by the student having demonstrated the ability to transfer the Unconditional Love energy they will have been attuned to and having demonstrated the ability of being able to work within a team.

Upon qualification as a 'New Awakening Spiritual Teacher' © you will work under license to practice this teaching system. The coming together of Spiritual Teachers creates a greater consciousness than the self whereby everyone is supported in Unconditional Love and Divine Wisdom, each benefiting in a multi-dimensional way; spiritually, materially and monetary. A united team also creates a national standard of excellence and trust for the student.

The whole concept of working in oneness with united intention is to create a golden age where the consciousness of mankind has shifted into the awareness of being a spiritual human being. The place where no conflict arises is the consciousness of Oneness, of Unity consciousness. It is this consciousness that is the foundation of the organisation.

The united power of the group's intention will bring about a united world, with a change in consciousness within society whereby we become global citizens of a new era, entering into a Golden Age. We recognise that we are not alone in this mission but are working together with similar organizations that have the same intention.
